

Raven Electronics Corporation

400 Edison Way, Reno, NV 89502

PROFESSIONAL SERVICES TICKET

At Raven, it is our close-working relationship with our customers that defines our vision and our approach. We are committed to partnering with you to provide solutions specific to your needs.

We are an engineering shop that will collaborate with you, discuss your technical concerns and then provide a solution. For peace of mind, assure yourself a dedicated week of Raven's professional services while taking advantage of the savings you will receive for planning ahead.

A **Professional Services Ticket** is only **\$2,750**, if purchased at the time the product is ordered; otherwise, it costs you \$5,500 if purchased any time after the product has been shipped. If more than five business days of dedicated support may be required, purchase additional Professional Services Tickets at the same savings rate of \$2,750 each, which is 50% off, if purchased at the time the product is ordered.

Your Professional Services Ticket ordered in advance provides you with:

- ★ **Five business days per ticket of dedicated support, which may or may not require on-site support. This decision is at the sole discretion of Raven Electronics.**
- ★ **A savings of at least \$2,750 (purchase more tickets and save even more).**

Redeeming your **Professional Services Ticket** is quick and easy!

Contact our **Raven Support Team** by:

Email support@ravencomm.com
Phone 1.866.329.2363 option #3 for Support
Online www.ravencomm.com/support

Professional Services Tickets are only available for Raven equipment installed in the United States.
